

ILLINOIS ROUTE 53/120 CORRIDOR LAND USE PLAN

We want to hear from you!

Public Input Sessions

Please join us to discuss land use, natural resources, quality of life, economic development, and transportation issues in central Lake County.

Since March 2014, the Chicago Metropolitan Agency for Planning (CMAP) and its partners have undertaken a collaborative planning initiative to create a Land Use Plan for the proposed Illinois Route 53/120 Corridor. This effort is not for the road itself, but for the communities and natural areas along the proposed corridor.

YOUR input will help ensure that the Illinois Route 53/120 Corridor Land Use Plan will protect community assets – including vital natural resources and quality of life – and identify opportunities to improve recreation, increase access to transit, promote efficient and effective land use, and enhance economic development.

Please attend an upcoming Open House to review initial study findings and provide input on your priorities for the corridor:

Wednesday, November 12, 2014
